Android-focused Software Engineer building mobile applications and complete software products. My primary stack is Kotlin, Jetpack Compose, and modern Android architecture, with experience across backend services, web development, and deployment.

EXPERIENCE

Software Engineer | Tarmoqda LLC | 2025 - Present

- Build and maintain Tarmoqda's mobile application with Kotlin Multiplatform, sharing business logic across supported platforms.
- Collaborate with backend engineers on API contracts, integration issues, authentication, and reliable mobile data flow.
- Use AI-assisted development agents for implementation, code analysis, refactoring, and debugging while retaining oversight of architecture and final implementation.

Freelance Software Engineer | 2021 - 2025

- Built Android and full-stack software from concept through implementation and deployment, including native mobile applications with Kotlin and Java.
- Developed React/Next.js interfaces and Node.js/Express services, using Git/GitHub and AI-assisted tools throughout the engineering workflow.

FEATURED PROJECTS

Tarmoqda | Live & Published

Software Engineer · Tarmoqda LLC. A mobile-first employment and recruitment platform connecting job seekers and employers in Uzbekistan. [Website](#) · [Google Play](#)

Kotlin · Kotlin Multiplatform · Compose Multiplatform · Ktor · Koin · Room · REST APIs

Pic2PDF | Published

Android Developer. An Android application that converts images into PDF documents entirely offline, without relying on online conversion services. Designed and developed the application, including its mobile interface, local file management, and PDF generation. Released on Google Play. [Google Play](#)

MyDoners | Live | 2026

Software Engineer · Full-stack & Android. An integrated restaurant ordering and operations platform connecting customers, administrators, kitchen staff, couriers, and backend services. Work across customer/admin interfaces, an Android Kitchen Display System, a Telegram courier bot, and the ordering backend, including deployment infrastructure. [Telegram](#)
